**Her Majesty Queen Elizabeth II  
1926-2022**

**We are in a moment of history and of great change, with the passing of Queen Elizabeth II, who has always been a strong constant in all our lives. It is now time to reflect and pay tribute to her wonderful service to our nation.**

**Despite the demands of her extensive and varied duties, she also dedicated herself to her family, giving them the love, support and family environment that any mother would want to provide. Indeed, we occasionally saw glimpses of a more personal side of the Queen, in particular, her humour, culminating in the extraordinary James Bond sketch for the 2012 Olympics, and especially the heart-warming Paddington Bear tea-time for her Platinum Jubilee.**

**She exemplified the qualities of hard work, steadfast loyalty, dedication, selfless duty, compassion, and respect. As Head of State she demonstrated diplomacy, integrity and honour, but for many of us, she remained a queen of the people: a person loved, respected and deeply mourned on her passing. May she rest in peace with her beloved husband Philip.**

**We extend our heartfelt sympathy to the Royal Family, and now look ahead to a new era, the reign of King Charles III, who has pledged lifelong service to the country. Long Live the King.**
